

# Biofuels consumption for transport in the European Union in 2017\* (in toe)

AROMI

## Key

Country	Biofuel consumption for transport (toe)	% certified sustainable
311		
100%		

■ Bioethanol
 ■ Biodiesel\*\*\*
 ■ Biogas

\* Estimate. \*\* Germany consumption figures include consumption of 2 388 toe of pure vegetable oil. \*\*\* HVO biodiesel figure included. \*\*\*\* As consumption data for Romania and Estonia were not available at the time of Eurobserv'ER's data collection, data from 2016 was used. Source: Eurobserv'ER 2018.
